- Type Script
- Tailwind CSS
- JavaScript
- SQL
- Fire Base
- Python
- Bash
- C++
- PHP
- HTML
- CSS
- JSON

Skills

- Team Work
- Leadership
- Fast Learner
- Passionate about Industry
- Communication
- Innovative & Creative

Interests

- Artificial Intelligent (AI)
- Software Development
- UI/UX Design & Development
- Web Development
- Linux
- Content Creation

Projects

Hidden Sri Lanka Mobile Application

Location-Based Tourist attraction suggestion

Android Application

Technologie: Android Studio (Java), Firebase

Backend with authentication and data storage,

Figma for UI/UX

Role: FullStack Development

Eduinity (Ongoing) - Group Project

Build a Connection between teachers and parents

Mobile Application + Web interface

Technologies ReactJS, React Native, MongoDB,

Firebase, Tailwind CSS, AI Integration,

Role: Team Leader

Automation & Documentation

I have developed and improved 40+ scripts and

documented them in my **GitHub**

Technologies: Bash, Python, Markdown, PHP, Java,

JavaScript, Typescript, Colabatory , Postman

,Selenium

Certification

Python For Beginners - University Of Moratuwa

Cisco Certified Ethical Hacker - Cisco

Information & Data Managment - AGORA/UNICEF

Certificates From Boot-camps - DevTown

C, Java, Python, MySQL, JavaScript

From Solo Learn

I certify that the above-mentioned particulars are true and accurate to the best of my knowledge
